ITA:	42/44	46/48	50/52	54/56

For Socks:

USA:	S/M	L/XL	XL/XXL
ITA:	36/39	40/43	44/47

ROS-10 MICROBICIDE SPRAY

Spray that eliminates all unpleasant smells that form on clothing and footwear. The main feature of this product is the silver ions, which control and eliminate bacteria, giving a great feeling of hygiene and freshness. Spray 100 ml.

MICROBICIDE EFFECT OF SILVER

The silver ions control the bacteria through a triple action:

1. They block the enzymes that carry oxygen;
2. They deactivate the proteins that contain the bacteria sulphur;
3. They close the cellular membrane;

The silver ions control the bacteria directly on surface of the fabric.

ROS-11 MICROBICIDE FOR WASHING MACHINE

Many fabrics have to be washed at low temperatures, which do not guarantees sufficient hygiene. With this product the washing is hygienised at 40°, guaranteeing freshness and hygiene. It remains active for up to 50 washing cycles. Dose: 100 ml. for a 5 Kg load

The triple action of the silver ions prevents the potential formation of resistant bacteria. Bacteria cannot adapt to all three operational actions which would make them resistant to silver.

ROS-20 PROOFING SPRAY

Proofing action against water oil and dirty with nan-technology. Spray 100 ml. Perfect for gloves, footwear and jacket, also made of leather.

PROOFING SPRAY WITH NAN-COMPONENTS

The additives in the spray act and co-crystallise with the dendrimers in nan environment, giving maximum repellece to water, oil and dirt.

LR-40

SHORT SLEEVED VEST "CARBON"

COLOUR: black
SIZE: S/M - L/XL

RESISTEX®: CARBONIO + TACTEL®

ANTISTATIC: Because its special conductive fibres absorb and dissipate electric charges produced and accumulated by the external environment or during physical activity.

SHIELDING: Because it protects the body from absorbing static energy, electosmog and UV rays.

REGULATES HEAT: It speeds up the evaporation process of perspiration, slows down the formation of humidity on the skin and keeps the temperature constant.

HIGH PERFORMING: Because during physical activity it lowers the concentration of lactic acid, improving the circulation of the blood and oxygenates the cells.

BACTERIOSTATIC: Because it respects the skin and protects it from bacteria and pollutant dusts, eliminating the risk of annoying allergies.

LR-41

SLEEVELESS VEST "CARBON"

COLOUR: black
SIZE: S/M - L/XL

LR-24

LONG SLEEVED VEST

Vest made of Microtactel Aquator to permit a better control of sweat. The long sleeve and the high neck make it suitable for a technical use

BOTH IN SPRING AND IN WINTER

COLOUR: black

SIZE: S - M - L - XL

LR-33

LONG SLEEVED VEST "MICRONET"

"Invisible" sock - it does not come out from the shoe. Above and below open-work to avoid excessive perspiration. The tongue on the ankle assures the sock to remain still.

COLOUR: white, black
Size: S/M - L/XL - XL/XXL

SUGGESTED ON HOT MONTHS
BECAUSE IT COVERS ONLY
THE FOOT AND NOT
THE ANKLE

LR-125

SOCKS RELAX

Realized for who want comfort and practicalness together.

COLOUR: black
Size: S/M - L/XL - XL/XXL

LENPUR®

ECOLOGICAL: it is made of fibres which come from cultivated wood.

HYGRISCOPEIC: it can be able to absorb umidity of the air; feet are dry and performances of the athlete are better.

STEAM PERMEABILITY: it allows fluids transmission from foot to aoutside and vice versa.

THERMOREGULATOR: it endures heavy thermal excursions, it refreshes on summer and it warms on winter.

ANTISTRESS: it assures dry and insulated sock from electrostatic charges in the atmosphere and a balanced nervous regulation.

LR-150

SOCKS LENPUR SHORTY

COLOUR: black/gray, black/yellow
Size: S/M - L/XL - XL/XXL

LR-160

SOCKS LENPUR

COLOUR: black/yellow/red
Size: S/M - L/XL - XL/XXL

REINFORCED FRONT
AND MICROHOLED CALF

RESISTEX®: CARBON + TACTEL®

ANTISTATIC: Because its special conductive fibres absorb and dissipate electric charges produced and accumulated by the external environment or during physical activity.

SHIELDING: Because it protects the body from absorbing static energy, electosmog and UV rays.

REGULATES HEAT: It speeds up the evaporation process of perspiration, slows down the formation of humidity on the skin and keeps the temperature costant.

HIGH PERFORMING: Because during physical activity it lowers the concentration of lactic acid, improving the circulation of the blood and oxygenates the cells.

BACTERIOSTATIC: Because it respects the skin and protects it from bacteria and pollutant dusts, eliminating the risk of annoying allergies.

Leggings and muff are made of Tactel Aquator (80%) and CARBON FIBRE (20%). They are studied to grant a efficacious barrier between skin and stiff protections which are weared on elbows and knees.

They allow to avoid troublesome irritations and blushings due to contact and rubbing of protectors.
